

Automatic Backup

Protect Your Data

Every few minutes, the built-in Automatic Backup feature will send your most recent data to a POS station.

In the event of a primary fileserver issue, a POS station will be turned into your temporary fileserver.

When everything returns to normal, HCS will transfer your data back to your primary fileserver.

**Every Few
Minutes:**

- **Menu Items**
- **Menu Screens**
- **Item Files**
- **Employee Data**
- **Revenue Centers**
- **Time frames**
- **Price Specials**
- **Pay Periods**
- **Tax Table**
- **Device Layout**
- **Time Cards**

**Plus,
Your data is never
stored in the cloud!!**
