

What Is The "Complete Solution"?

We make sure you are using your point-of-sale system as a **"Strong Management Tool"**.

How do we do that?

- We perform a comprehensive site survey of all your procedures
- We do all data programming
- We train your entire staff
- We do the manager and bookkeeper training
 - We use only high-quality equipment – not disposable
- You are working with restaurant pros – not computer guys
- Your support is HCS – not outsourced
- We spend over 80 hours just on your project
 - Not just a 3-day drop and run
- HCS has over 30 years restaurant/POS experience
 - Not computer guys from the local IT school

In other words:

- we do not sell inferior equipment,
- we do not provide inferior service,
- and we do not perform an inferior installation

**We provide:
"The Complete Solution"**
