

Nothing Is Free

In fact, **free is very expensive.**

Most “economical” (free) systems charge you outrageous costs for monthly plans. In the long run, you pay **MUCH MORE** for your POS system.

HCS will not discount service or support. When you call for service, you call HCS (not an 800-number call-center).

- **You need** to contact the company that
 - sold and installed your system
 - knows you and your operation
 - built your database and knows your priorities

A “free” POS system does not include the **partnership** with your POS dealer.

The Choice is Yours However

A “Free” System, from Anyone, can be EXPENSIVE
